Profile and System Functionality

May 2020

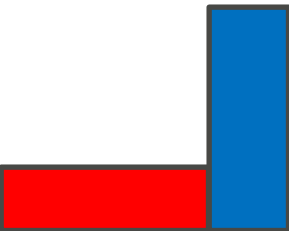

Overview

Introduction

- Inception, Coverage and Usage

System Features

Tender Notification Service

Introduction

Inception

- Launched in January 2016

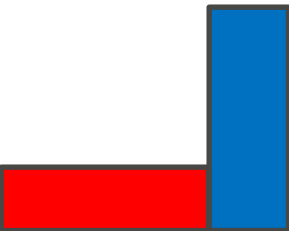

Coverage

- Cover almost all e-Tenders published by State government, Central government and PSUs
- ~ 4000 websites are routinely scouted to identify manual tenders
- ~ 10000 tenders are inserted into the portal on a daily basis

Introduction

Usage

- Many reputed corporate entities have subscribed to our services and renewed their subscription for consecutive years
 - The Tendersniper portal is actively used by thousands of users on a daily basis
- 

System Features

System Features

Search functionality

- Semantic search – Relevance based
- Plain search – Word based
- Unlimited search access – No restrictions on the search keywords

Email notifications

- Customized tender notifications sent by mail, specifically addressing customer's requirements
- Periodicity of the mails can be configured as per customer requirements (e.g. daily, alternate days or weekly)

Tender results

- No restriction on searching Award of contract details
- Latest award of contract details pertaining to the configured tender notifications sent by mail, periodically

System Features

Individual Tender Search

- A provision to search both live and expired tenders based on Tender ID

Favorite Tenders

- The user can mark a tender as favorite and view all the favorite tenders at one place
- In the favorite tender's page, the user can view the tender results as and when available

Search Filters

- Provision to filter search results based on the Sectors, Purchasing agency, Districts, States, PSUs, Estimate price and Earnest Money Deposit
